Objective

Highly skilled Data Analyst seeking a challenging position in a dynamic, growth oriented organization where I can utilize my expertise and explore my full potential while achieving personal, professional, and organizational goals. With a strong background in data analysis, visualization, and problem-solving, I am committed to driving data-driven decision-making and uncovering insights that foster business growth. My passion for continuous learning ensures I stay ahead of industry trends and deliver impactful results.

Project

Retail Sales Analysis for Vinayak Electric & Hardware

- Developed a Power BI dashboard to analyse sales trends, product performance, and customer behaviour for Vinayak Electric & Hardware.
- Used Excel for data processing and visualization. Key insights included top-selling products, store performance, payment preferences, and order priorities, aiding in business decision-making and inventory optimization.
- The project showcased expertise in data analytics, visualization, and business intelligence for retail sales enhancement.

Pizza Sales Analysis

- Utilized Power BI to design an interactive dashboard, visualizing key sales metrics such as revenue, profit margins, and order trends.
- Applied SQL for data extraction and transformation, ensuring accurate and structured data for analysis.
- Leveraged DAX functions in Power BI to calculate KPIs like total revenue, average order value, and category-wise performance.
- Developed data-driven insights using advanced visualizations, enabling better decision-making on product performance and sales trends.
